- 44 Support basic minimum income.

### **Environment**

- 3 Diversion of HSR money from Bakersfield to here to ensure electrification of CalTrain and its elevation above grade. The HSR is a ridiculous lie at this point. In 2019 there were at least 467 daily flights between the SF Bay Area and the LA area (not even counting San Diego area though it overlaps with LA) carrying as many as 84,000 passengers. HSR can't even come close to that daily figure at its max.
- 4 Preparation for water distribution by truck as early as next summer. We seem to be having decent rainfall, but if that dries up in early 2022 we are looking at drastic measures. Let's be sure there's a plan in place.
